Site Details

Growth Observed	None	Normal	Moderate	Requires Treatment
Algae	✓			
Shoreline Vegetation		✓		
Floating Weeds		✓		
Submersed Vegetation	✓			
Water Clarity	2-4ft			

Wildlife Observed: Alligator

Great Egret

Anhinga

Comments: Site looks good.

Overall everything looks good. Followed up on Request for Service on Lake 9, 1720 Sklar Dr.-Wedelia in riprap. Has been treated and is browning, (bottom left photo). Did not see any tall weeds on Lake 9, only observed smaller weeds in riprap that will be targeted at the next service visit.

Action Required: Routine maintenance
